2 MAY 2001

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Generic Accreditation for the Army Lodging Property Management System (ALPMS)

1. References:

- a. AR 380-19, Information Systems Security, 27 February 1998
- b. Department of Defense Instruction 5200.40, DoD Information Technology Security Certification and Accreditation Process (DITSCAP), 30 December 1997
- c. Memorandum, ODISC4 (SAIS-IAS), 1 November 2000, subject: Interim Authority To Operate (IATO) for the Army Lodging Property Management System (ALPMS).
- d. Memorandum, ODISC4 (SAIS-IAS), 15 February 2001, subject: Extension of Interim Authority To Operate (IATO) for the Army Lodging Property Management System (ALPMS).
- e. System Security Authorization Agreement (SSAA) for the Army Lodging Property Management System (ALPMS), 1 May 2001.

2. I have reviewed the findings and recommendations contained in the Certifying Authority's recommendations for generic accreditation of the Army Lodging Property Management System (ALPMS), including the Security Features Users Guide (SFUG), Trusted Facility Manual (TFM), and Contingency Plan, and have concluded that the ALPMS meets the minimum security requirements for processing and storing Sensitive But Unclassified (SBU) information in the systems high security mode of operation. The security countermeasures identified in reference e. are sufficient and necessary to counteract the identified risks to the ALPMS and its information. Therefore, the ALPMS can be operated within the bounds of acceptable risk.

SAIS-IAS (380-19)

SUBJECT: Generic Accreditation for the Army Lodging Property Management System (ALPMS)

3. Accordingly, approval to operate is granted to store and process Sensitive But Unclassified information in the systems high operating mode, when the system is operated within the bounds established in the System Security Authorization Agreement for the ALPMS.

4. This Generic Accreditation Approval To Operate (ATO) supersedes all previous ALPMS Interim Approvals to Operate (IATOs) and amends the SSAA for the ALPMS, with Appendices J (SFUG), K (TFM), and L (Contingency Plan). The final ALPMS SSAA, dated 1 May 2001, is enclosed in electronic format.

5. As the ALPMS was accredited using the generic/type accreditation approach, Information Assurance (IA) personnel and ALPMS operators assume the responsibility to monitor system operation for compliance with the environment as described in the accreditation documentation.

6. The ALPMS will be maintained according to the requirements of the DITSCAP Phase 4, which directs activities to maintain the system at an acceptable level of risk (reference b). The ALPMS will also be accredited every three years, or within three months of any major system change or other occurrence, as noted in paragraph 3.6.a, of AR 380-19 (reference a).

7. Points of contact within the Information Assurance Directorate are Mr. Albert Kondi, DSN 664-7572, commercial (703) 604-7572, Albert.Kondi@HQDA.army.mil; Ms. Jeanne Medeiros-Williams, DSN 329-0741, commercial (703) 601-0741, Jeanne.Medeiros-Williams@HQDA.army.mil; and Dr. Joseph Cornwell, commercial (703) 325-7963, Joseph.Cornwell@HQDA.army.mil. The ALPMS functional point of contact is Mr. David La Pradd, DSN 761-3770, commercial (703) 681-3770, David.LaPradd@cfsc.army.mil.
